**TurnItIn Assignment**

TurnItIn is a service that checks assignments for originality. TurnItIn checks the submitted papers against web pages, other student papers, and many leading library databases and publications. It just shows the percentage of the resources used in the assignment and the links were the sentences are taken.

TurnItIn assignments are synchronized with AUA Moodle platform, and are directly submitted to the Moodle.

**How to submit a paper**

The icon of the TurnItIn assignment is different from regular one. You need to upload your paper through TurnItIn in the Moodle. You will be graded in the Moodle too.

Click on TurnItIn assignment that was created by your instructor

Read the assignment details in the **Summary** tab and click on **My Submissions** tab to upload your assignment.

In the **My Submissions** tab write the **Submission Title** of your paper and then click on **Brows** button and attach your file, tick the box and confirm that it is you and click on **Add Submission** button
Viewing Originality Report

Your instructor may choose to allow you to view the originality report of your assignment. In that case you can view the percentage of the matching words and sentences found in other sources. TurnItIn is also counting the quotes and citations, and it is up to your instructor to exclude the resources or not. Your instructor will let you know the accepted level of similarity and what will be excluded from the paper and what will be counted as plagiarism.

To view the grade and similarity percentage, go to your TurnItIn assignment and click on My Submissions tab

Under My Submissions tab click on Similarity percentage to review your paper.

In the Document Viewer report you will see the content that you have used in your paper that has matches with other sources. It will be color-coded and numbered within the work and on the right column it will depict the percentage number of the sources used.
The view the grade, go to the **My Submissions** tab. Your grade will be displayed in the **Grade** column. Any general comments can be read by clicking on the number in the **Comments** column.
